

WHEN IT COMES TO ENERGY EFFICIENCY, THE WRITING IS ON THE WALL.

By significantly reducing air leakage, ZIP System® wall sheathing contributes to greater comfort and energy efficiency in a home.

A superior building envelope is here. By simply taping panel seams with ZIP System™ tape, ZIP System® wall sheathing effectively seals the wall system, decreasing unwanted air leakage into and out of the home. This helps protect the R-value of insulation**, reducing heating and cooling costs*. With a revolutionary built-in weather resistant barrier, ZIP System wall sheathing is the only all-in-one solution that delivers the strength, durability and efficiency of engineered wood while sealing out air and water. It's not surprising builders everywhere are turning to ZIP System sheathing as an easier, tighter alternative to help achieve new energy code requirements. Say hello to the future of energy-efficiency, and good-bye to housewrap—once and for all.
